This is a trying time of the year. Many discomforts arise from the heat. The best way to be comfortable is by bathing often, at least twice daily, and by using a liberal quantity of talcum powder. By bathing often one keeps the skin clean and the pores open, thereby allowing the entire body to "breathe freely," which means perfect health.

The best soap to use for the bath and tollet is Picard's Complexion Soap, a non-injurious, healthful soap.

Talcum powder keeps the skin cool, allays heat rash, stops chaffing and is an excellent tollet requisite. We have a number of kinds.
